13. He also referred to the need for protecting the Public Sector Banks and the struggles that have been launched by the Federation in advancement of their arguments that the Public Sector Banks should not be diluted and the ownership should remain with the Government in order to serve the common man of this country.
14. He also referred to some of the issues that are confronting the bank. The major one was the shortage of staff due to massive expansion. The 10th Bipartite settlement has just concluded but a number of issues remain unresolved, in particular the issue of improvement in the family pension, the improvement in the pension, the extension of the benefit of 100% DA to the earlier retirees etc., and he wanted that the Government should take a sympathetic view and accede to some of the long pending demands of the unions. He urged upon the Hon'ble Minister that these issues should be sorted out at the earliest.
15. When the Hon'ble Minister Shri.Jayavant Sinha, rose to address the meeting there was a thunderous applause all round. The house was over whelmed by his simplicity and the humbleness. He conveyed good wishes to the entire gathering and wanted to speak about the leadership qualities expected of the members of the State Bank of India. "As bankers you are all interested in numbers. Let me quote some of the numbers which are of interest to you as bankers" stated, the Hon'ble Minister of State for Finance, Government of India in the commencement of his address. He was of the view that the country is expected to become the second largest economy next to the US, which is the largest economy with over 17 trillion dollars. Our country with its two to three trillion dollar size is poised to reach the target of over 10 trillion dollar in the next ten years, if the current anticipated GDP rate of 8% is taken as base. It is possible to achieve this provided all of us work together. The NDA Government with a massive mandate has decided to see that the banking facilities are available to the last person in the society and they should be able to get the benefit of the Government's subsidiaries to their accounts without the intervention of the intermediaries through the bank accounts. Your bank has great responsibility, as they demonstrated, at the time of opening Jan Dhan Accounts and should now take up the leadership of the banking industry and make it possible for the Government to achieve all its targets, he said.
16. The Challenge before us is to ensure that the financial inclusion is achieved through innovative banking. You are all expected to take leadership in this direction. The bank should also become a strong bank and assume leadership in our country as a strong bank in the country. The State Bank of India should become a strong global bank through the participation of the employees and officers in this direction. If you are all able to work together and assume leadership of the banking your bank should be able to become a trillion dollar bank in the days to come, he said.
17. As the global leaders, your Bank should become a strong bank with strong Capital base so that you are also able to secure better facilities. Let us therefore resolve to ensure that our leadership would help the country to prosper and similarly you are also able to prosper in your lives, stated Shri.Jayant Sinha, addressing the gathering.
18. He wished all the best and hoped that the General Council would deliberate on all these issues and take necessary steps to achieve the progress for the bank and as well as the development of the nation.
19. The Hon'ble Minister also released the following publications of the Federation, specially brought out on the occasion:

20. Smt.Arundhati Bhattacharya, the Chairman of the Bank addressing the gathering stated that the State Bank of India is able to provide excellent service. The diversification in the bank is so vast that the banking facilities have multiplied and the customers are able to get all type of services in the Bank. She highlighted the three spheres of our functioning in order to become a strong and vibrant global bank. The first one is that we should become a CARING BANK. She was very particular that the customer service should be excellent and whenever we assemble in social function amongst our relatives we should get a good feedback. She referred to the situation where the relatives and friends would be talking about the bad service of the bank and how we should be able to overcome this situation and walk freely and comfortably amongst our relatives and friends in social gatherings. The Bank has taken up the responsibilities entrusted to it by the Government. It is our responsibility to ensure that the have not's are served so that have's are able to live comfortably in the society. The Western countries are also now concentrating on have not's accounts after seeing the experience of the Indian Banking she stated. She referred to the recent progress that the bank has been able to achieve through opening of over 7 crores of Jan Dhan Accounts with zero balance. But today we are able to garner over Rs. 3,100 crores of deposit through top 30% of these accounts and there is a lot of potential in these remaining 70% accounts, she stated.
21. She referred to the changing environment in the banking and wanted our employees and officers should be able to compete with the banks outside through continuous innovation and learning process and hence our second aim should be that we should become a LEARNING BANK.
22. She elaborately spoke about the future perspectives of the Bank and explained that the Bank should take leadership in three prominent areas. The leadership in regard to the Financial inclusions schemes where we should be able to serve all the have not's so that they are also helped. The desire to remain as a learning bank is very important as banking is vastly expanding and new challenges are before us.
23. The Bank should continue to remain a premier banking institution and make its presence all over the world by becoming a strong global bank. Hence we should become a WINNING BANK to ensure that we not only remain a number one bank in the country but in the entire world.

24. Hence, let us all together strive in this direction and when the bank prospers the employees and officers would also prosper she declared.
25. Com.Harvinder Singh, the General Secretary of the Confederation was of the firm view that the views of the Officers' organization should be heard by the Government. He also referred to the success of the strong trade union movement in the State Bank of India and how it has helped in consolidation of the Bank Officers' movement under the banner of the Confederation. The IBA and UFBU has just recently concluded the 10th Bipartite Settlement after a protracted negotiations. However, there are several issues that needs to be addressed by the IBA and solutions are required to be found out for those issues. The major issue that is still pending are the issues relating to the Pension improvements. The revision in family Pension, the payment of 100% DA in respect of the earlier retirees, the up gradation of Dearness Allowance etc., are still unresolved and the IBA has to consider these issues sympathetically and sort it out. The UFBU will meet shortly to prepare its strategy for achieving these issues in the coming days stated Shri.Harvinder Singh.
26. He desired that the business session of the General Council should take up all the major issues affecting the banking industry and take such decisions which would help us to further consolidate our movement in the banking industry. He wished the Golden Jubilee Celebrations and as well as Business Session All the Best.
27. Com.Murali, the Secretary of All India State Bank of India Staff Federation and also the convener of UFBU, addressing the meeting referred to the brief history of the State Bank Officers' movement and the struggles and success of its journey over the last 50 years the improvements it has brought in the service conditions of the officers' fraternity in the banking industry. He also referred to the long standing bond between both the Federation and its endeavour to pursue all common issues through joint struggles. He mentioned about the successful completion of the negotiations after a prolonged meetings with the IBA and the signing of the 10th Bipartite. He was confident that the revised salary would be paid with effect from June month.
28. He said that the prosperity of employees and officers depends upon the prosperity of the Bank. He made a reference to the unreasonable comparison that is sought to be made in respect of the per employee profitability between the private banks and the State Bank which has the responsibility of carrying forward the various schemes of the Government. In the recent past, we have implemented a number of schemes introduced by the Government in particular Jan Dhan Yojana, where more than 7 crores accounts were opened and it does not figure in the performance of the employees while a lot of time is devoted for this work. Similarly, the large scale expansion without any additional recruitment also is a great pressure on the workforce. The comparison of performance in respect of our members profitability with that of Private Sector banks who have no social responsibility is unfair. The Bank should consider these constraints while referring to the per capita performance of the employees he declared.
29. Referring to the SBI package which is being the subject matter amongst our members all over the country he was of the view that the leadership of both the Federation would meet the Chairman of the Bank in the near future.
30. The United Forum of Bank Union would meet and take stock of the situation and decide the future course of action in respect of the issues that are to be pursued with IBA and the Government, declared Com.Murali. He wished all the success for the meeting and the Golden Jubilee Celebrations and hoped that the business session will deliberate on all the major issues affecting the banking sector and take appropriate decisions in the interest of the workforce in the banking industry.
