The scheme to reward only a handful of the officials is discriminatory as the highest grade cannot be awarded to more than 20% of the officers. He further emphasised that the government might use this as an excuse for not extending services of Officers once they reach the age of 55 and 58 respectively. This will pave the way for lateral entries at even SMGS IV and V also. He stressed upon the fact that we have intentionally kept away 5 days banking and PLI out of the agenda for the upcoming movement which might involve strike action in the near future as more important agenda like lateral entries, non-extension of services, further merger of PSBs, dilution of government stake is gaining traction. He stated operational lapses are on the rise and many of them are taking place due to hiring of contractual services. He called upon to strengthen the Federation by staying united.
